# ATS1476

## (10 pack) Hitag II card with magstripe

### Product Overview

The cards are PVC made and have a HICO-Magstripe. Both the smart ship and antenna are embedded inside the card. Printing is possible on the card using any industry standard printer.  The cards feature a programmable magnetic strip for Time & Attendance or other applications. The cards are used on the ATS proximity readers as well as the magstripe readers. Printing is possible on the card using any industry standard printer and because each card has superior finished surface you will always have excellent printing results.
