ACT725-37

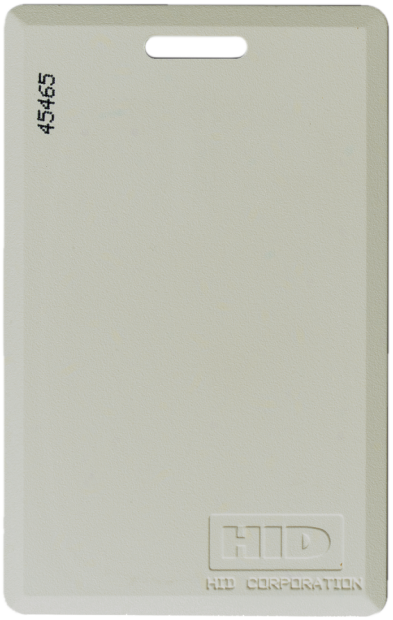

Proxcard II sitecode 37

Overview

The ProxCard II Proximity access card incorporates radio frequency identification electronics into a thin, durable polycarbonate package approximately the size of a standard credit card. It is thin and flexible enough to be carried in a wallet or on a strap clip.

Features

ProxCard II cards are easily customized with multicoloured graphics. With the application of self-adhesive photo pouch or PVC overlay, the ProxCard II card is compatible with most photo ID systems.

Détails

- Offers universal compatibility with all HID proximity readers
- Provides durable packaging and consistent read range
- Provides an external number for easy identification and control
- HID standard 32-bit configuration
- A PVC overlay allows for on-site photo ID using most direct image printers
